Spun Rondels

Spun Rondels are made by a single gather of solid color that is spun in a "goblet footing" tool. These rondels are typically thicker (and darker) in the center. Available 2", 3" and 4" only. A more affordable choice for applications that do not require a flashed or specialty rondel. All Spun rondels can be special ordered in any other existing Kokomo cathedral color with a minimum purchase of 16 rondels per color.

Spun Rondels are available in the following sizes only:
2", 3" and 4".

Special Order Only

Blown Rondels

Flashed (blown) Rondels are Flint based.
 The glassblower takes a single gather of Clear and
 on top of that gathers a microthin layer of Color glass.
