

Mirrored and Float Glass

MIRRORED GLASS

MIRROR - SILVER DOUBLE STRENGTH

Cat. No. 1200-36*

24" x 36" (609 x 914mm) size sheets may be consolidated with other glass for crated shipments.

FRONT SURFACE MIRROR

Cat. No. 12015*

Aluminized. Each 12-1/2" x 16" (317 x 406mm) sheet is laminated with a protective cover.
3/64" (1.2mm) thick.

Cat. No. 1204*

High quality glass for kaleidoscopes in 12" x 12" (304 x 304mm) sheets, 1/8" (3mm) thick.

*NOTE: These styles are not mixable with other glass for quantity discount.

FLOAT GLASS

DOUBLE STRENGTH GLASS

Cat. No. 1202*

Clear float, double strength glass.
Sheet Size: 24" x 36" (609 x 914mm)
Sheet Thickness: 1/8" (3mm).

SINGLE STRENGTH

Cat. No. 1203*

Clear float, single strength glass.
Sheets Size: 24" x 36" (609 x 914mm)
Sheet Thickness: 3/32" (2.3mm).

THIN GLASS

Cat. No. 1110*

Used to sandwich pressed flowers, filigrees, etc.

Sheet Size: 10" x 14" (254 x 355mm);
Sheet Thickness: 3/64" (1mm).

Glass Sample Sets

We stock the most complete line of stained glass found anywhere in the industry. It is impractical to offer one gigantic and costly sample box which would include thousands of samples.

Each set is labeled with the manufacturer's number. Most sample sets are supplied by the manufacturer and contain most stocked colors.

NOTE: Each individual sample is only relative because of variation in sheet thickness, color of each batch and color mix within the sheet from which the sample was cut. This is especially true of antiques and art glass.

Cat. No.	Description
